Skills

- **High-Level Skills:** Web Development, API Development, DB Management, Gen AI, DevOps
- **Languages:** JavaScript, TypeScript, Python, HTML (PUG), CSS (Sass)
- **Framework/Lib:** Node.js, ORM, ODM, Vue.js, Nuxt.js, React.js, Next.js, Redux, Puppeteer, Cheerio, Tailwind, BullMQ, Redis, Nest.js, Sequelize, Mongoose, AWS S3 bucket, Stripe, Supabase, FlaskAPI
- **Tools:** Git, GitHub, GitLab, Bitbucket, NGINX, Postman, VSCode, DevTools, Docker, Jira
- **APIs:** REST APIs, WebSocket, GraphQL
- **Cloud:** Heroku, Vercel, Netlify
- **O.S:** MacOS, Windows, Ubuntu
- **Databases:** MongoDB (NoSQL), MySQL (SQL), SQLite, Redis
-

Experience

Dotsquares Technologies India

Software Developer • Jaipur, Rajasthan

06/2024 - Present

- Developed **full-stack applications** using **MERN (MongoDB, Express.js, React, Node.js)** and **NestJS**
- Built and maintained **REST APIs, microservices, and modular backend architectures**
- Implemented **MySQL, MongoDB, and Redis caching** for high-performance data management
- Integrated **Stripe payment gateway, Xero accounting APIs, and AWS S3 cloud storage**
- Developed **AI-powered chat and messaging features** using **Generative AI APIs**
- Worked with **authentication, authorization, JWT, OAuth, and secure API design**

Center For Development Of Advanced Computing(CDAC)

Full Stack Developer, Apprentice • Silchar, Assam

05/2021 - 05/2024

- Developed an application intern website showcasing expertise in frontend technologies **React, Tailwind Css** and backend frameworks **MongoDB, Node.js, Express.js**.
- Crafted a responsive and user-friendly student portal and admin portal, ensuring an engaging and seamless experience for both students and administrators.

Projects

[DertourInghams - UK Walking & Holiday Travel Platform](#)

- Developed responsive travel and resort experiences using **Vue.js** and **Nuxt.js**.
- Built reusable components and managed application state with **Pinia** and **Vuex**.
- Integrated **WAPI APIs** and **Umbraco CMS** to deliver dynamic travel content.
- Worked with **Pug, Sass** and **Vite** to build and maintain frontend modules.

[Dertour Explore - Travel & Holiday Booking Platform](#)

- Developed customer-facing travel features using **Vue.js** and **Nuxt.js**.
- Integrated **Algolia Search** for fast and relevant destination and holiday search.
- Consumed **WAPI APIs** and **Umbraco CMS** for dynamic travel data and content.
- Implemented **Jira** requirements and defect fixes with **QA** and development teams.

[AutoXCarCare - UK/Australia Based Car Service Platform](#)

- Developed a large-scale car service and cosmetic repair membership platform with a **Next.js** frontend and **Nestjs** backend.
- Built a robust multi-role admin panel to manage diverse stakeholders: **Customers, Dealers, Partners, OEMs, Sub-OEMs, and Subcontractors**.
- Implemented membership subscription workflows, technician availability and repair request management using **stripe**.

[Titan Travel - UK's Most Awarded Escorted Tour Company](#)

- Contributed to the development of Titan Travel's enterprise platform, enabling seamless holiday bookings, escorted tours, and customer services.
- Implemented the Next.js frontend with optimized performance and responsive design for cross-device accessibility.
- Integrated with Titan's core travel management system Tigerbay and (Nodejs backend) to handle flights, tours, and customer itineraries.

[GPG Plumbing - Australia Based On Demand Service Platform](#)

- Built and maintained the admin panel using NestJS and Next.js, implementing RBAC, multi-role access, booking workflows, jobs module, and custom APIs for mobile developers.
- Integrated Xero, AWS S3, IMAP email services, and third-party tools to enable file storage, accounting sync, email read/unread tracking, bounce detection, and user reply visibility inside the jobs panel.
- Developed advanced UI features: drag-and-drop reordering, powerful filters, infinite scroll, type-ahead auto-prompt sentence suggestions, and a highly optimized data management experience.
- Implemented scalable backend operations using BullMQ queues for large dataset exports, ensuring high performance, reliability, and smoother admin operations.

[Email Template Web Component \(npm: email-template-component\)](#)

- Built a framework-agnostic email template web component using Shadow DOM and TypeScript, supporting React, Vue, Angular, and plain HTML.
- Implemented dynamic replaceable fields (e.g., {{username}}, {{date}}), customizable inputs, and event-driven actions like email-template-change and email-template-save.
- Designed a fully customizable styling system using the fieldstyles API for fine-grained UI control without affecting global CSS.
- Published as an NPM package enabling developers to instantly embed reusable, professional email-template builders in their apps.

[Vonage Video Meeting Widget \(npm: vonage-video-meeting-widget\)](#)

- Developed a cross-platform video meeting widget using Vonage Video API, offering video/audio, screen sharing, chat, reactions, device selection, and participant management.
- Packaged as a React/Web Component hybrid, compatible with React, Angular, Vue, and vanilla JavaScript, with full CDN support.
- Built an extensible UI with full theme customization, icon overrides, Tailwind support, and page-level styling APIs (landing page, pre-join page, dashboard).
- Delivered a plug-and-play meeting system with session creation, token generation, URL parsing, host/guest modes, making it a complete turnkey video-calling solution.

Education

Assam University, Silchar

BSc in Computer Science, 8.3 CGPA • Silchar, Assam

08/2023

Certificates

- [Schema Patterns And AntiPatterns](#) → MongoDB
- [Relational To Document Model](#) → MongoDB
- [Fundamentals of Data Transformation](#) → MongoDB
- [Next Js: The Complete Developer's Guide](#) → Udemy
- [Helsinki Full Stack Open](#) → University Of Helsinki
- [The Modern Javascript Bootcamp Course](#) → Udemy
